The Gulfstream Environmental & Recreational Trust program was created in 2000 to distribute at least \$350,000 during the first five years of pipeline operations to benefit communities near the pipeline route. During the first three years of the program more than \$200,000 has been distributed.

More than 30 written grant applications were submitted from Jan. 1 to Sept. 15, 2003. An Advisory Resource Network consisting of environmental experts met in November to determine which projects would receive funding and how the dollars would be distributed. Grants were awarded based on community need, environmental benefit and ability to complete the project as proposed.

The application deadline for the 2004 Gulfstream Environmental & Recreational Trust program is Sept. 15, 2004. Applications are available on the Gulfstream web site at [www.gulfstreamgas.com](http://www.gulfstreamgas.com).

Placed into service in May 2002, Gulfstream Natural Gas System, L.L.C. is a 581-mile pipeline system with the capacity to deliver 1.1 billion cubic feet of natural gas each day to serve Florida's growing energy needs. The pipeline is a joint development between Williams (NYSE:WMB) and Duke Energy (NYSE:DUK).
